Nondiscrimination and Equivalent Opportunities in the Athletic Program

No student shall be excluded from participation in, be denied the benefits of, be denied equivalent opportunity in, or otherwise be discriminated against in interscholastic, intramural, or club athletics on the basis of actual or perceived sex, sexual orientation, gender, gender identity, gender expression, ethnic group identification, race, ancestry, national origin, religion, color, mental or physical disability, or any other basis specified in law. (Education Code 220, 221.5, 230; 5 CCR 4920; 34 CFR 106.41)

(cf. 0410 - Nondiscrimination in District Programs and Activities)
(cf. 5145.3 - Nondiscrimination/Harassment)

Each student shall be allowed to participate in any single-sex athletic program or activity consistent with his/her gender identity and for which he/she is otherwise eligible to participate, irrespective of the gender listed on the student's records. (Education Code 221.5)

(cf. 5125 - Student Records)

When a school provides only one team in a particular sport for members of one sex, but provides no team in the same sport for members of the other sex, and athletic opportunities in the total program for that sex have been previously limited, members of the excluded sex shall be allowed to try out and compete with the team. The same standards for eligibility shall be applied to every student trying out for the team, regardless of sex, sexual orientation, gender, gender identity, gender expression, or other protected group status. (5 CCR 4921; 34 CFR 106.41)

The Superintendent or designee shall ensure that equivalent opportunities are available to both sexes in athletic programs by considering, among other factors: (5 CCR 4922; 34 CFR 106.41)

1. Whether the offered selection of sports and levels of competition effectively accommodate the interests and abilities of both sexes

The athletic program may be found to effectively accommodate the interests and abilities of both sexes using any one of the following tests: (Education Code 230)

- a. Whether the interscholastic-level participation opportunities for male and female students are provided in numbers substantially proportionate to their respective enrollments
- b. Where the members of one sex have been and are underrepresented among interscholastic athletes, whether the district can show a history and a continuing practice of program expansion that is demonstrably responsive to the developing interests and abilities of the members of that sex

Athletic Competition (Cont.)

- c. Where the members of one sex are underrepresented among interscholastic athletes and the district cannot show a history and continuing practice of program expansion as required in item #1b above, whether the district can demonstrate that the interests and abilities of the members of that sex have been fully and effectively accommodated by the present program
2. The provision and maintenance of equipment and supplies
3. Scheduling of games and practice times, selection of the season for a sport, and location of the games and practices

7. Provision of locker rooms, practice facilities, and competitive facilities
8. Provision of medical and training facilities and services
9. Provision of housing and dining facilities and services
10. Publicity
11. Provision of necessary funds

Each school that offers competitive athletics shall, at the end of the school year, post on its school web site, or on the district web site if the school does not have a web site, the following information: (Education Code 221.9)

1. The total enrollment of the school, classified by gender
2. The number of students enrolled at the school who participate in competitive athletics, classified by gender
3. The number of boys' and girls' teams, classified by sport and by competition level

(cf. 1113 - District and School Web Sites)

The data reported for items #1-3 above shall reflect the total number of players on a team roster on the official first day of competition. The materials used to compile this information shall be retained by the school for at least three years after the information is posted on the web site. (Education Code 221.9)

(cf. 3580 - District Records)

Concussions and Head Injuries

The Superintendent or designee shall annually distribute to student athletes and their parents/guardians an information sheet on concussions and head injuries. (cf. 5145.6 - Parental Notifications)

The Superintendent or designee shall provide training to coaches and/or athletic trainers regarding concussion symptoms, prevention, and appropriate response. (Education Code 35179.1, 49032)

(cf. 4127/4227/4327 - Temporary Athletic Team Coaches)

If a student athlete is suspected of sustaining a concussion or head injury in an athletic activity, he/she shall be immediately removed from the activity for the remainder of the day. The student shall not be permitted to return to the activity until he/she is evaluated by a licensed health care provider trained in the management of concussions and receives the health care provider's written clearance to return to the activity. If the health care provider determines that the athlete sustained a concussion or a head injury, the athlete shall also complete a graduated return-to-play protocol of no less than seven days in duration under the supervision of a licensed health care provider. (Education Code 49475)

A middle school or high school football team shall not hold a full-contact practice during the off-season and shall not conduct more than two full-contact practices per week during the preseason and regular season (from 30 days before the commencement of the regular season until the completion of the final interscholastic football game of that season). In addition, the full-contact portion of a practice shall not exceed 90 minutes in any single day. For these purposes, full-contact practice means a practice where drills or live action is conducted that involves collisions at game speed, where players execute tackles and other activity that is typical of an actual tackle football game. (Education Code 35179.5)

The Superintendent or designee shall distribute the California Interscholastic Federation (CIF) information sheet on sudden cardiac arrest to all student athletes who will be participating in a CIF-governed athletic activity and to their parents/guardians. The student and parent/guardian shall sign and return the information sheet prior to the student's participation in the athletic activity. If an athletic activity is not covered by the CIF, the student and his/her parent/guardian shall, prior to participating in the athletic activity, sign and return an acknowledgement that they have received and reviewed the sudden cardiac arrest information posted on the California Department of Education's web site. If a student exhibits any other symptoms of sudden cardiac arrest, including seizures during exercise, unexplained shortness of breath, chest pains, dizziness, racing heart rate, or extreme fatigue, he/she may be removed from participation by a coach or other employee who observes these symptoms. If any such symptoms are observed, notification shall be given to the student's parent/guardian so that the parent/guardian can determine the treatment, if any, the student should seek. A student who has been removed from participation shall not be permitted to return until he/she is evaluated and given written clearance to return to participation by a health care provider. (Education Code 33479.2, 33479.5)

Student Athletic Code

The philosophy of the Oroville Union High School District stresses the belief an athlete is expected to represent high standards, more so than that of the regular student, and that the athletic code will apply to all athletes in our district. An athlete is described as any student participating in athletic practices and/or contests under the control and jurisdiction of the District.

We are concerned with maintaining PRIDE in our athletic programs, and believe that outstanding physical condition and high moral standards are top goals for our athletes. The district embraces the CIF "Pursuing Victory With Honor" as adopted by CIF.

The following rules and regulations govern all athletes that represent Las Plumas and Oroville High Schools in any kind of interscholastic competition and are in addition to California Interscholastic Federation and Northern Section California Interscholastic Federation regulations.

These guidelines are designed to promote the ideals of sportsmanship, pride in representing the school district, and insure acceptable standards of participation. They apply to each student athlete during their season of sport.

1. Scholastic Requirements

- A. To be eligible for any team, a student will not be permitted to have more than two (2) failing grades (F) or incompletes (I), regardless of the number of subjects he/she is taking. He/she must be passing at least twenty (20) credits.
- B. The academic probationary period may be used once in the four-year time frame (less for a transfer student) that a student is enrolled in the Oroville Union High School District. The academic probationary period is defined as a quarter. The GPA that determines whether a Probationary Period is needed is the previous grading period. During the academic probationary period, a student may participate in athletics without a 2.0 GPA. However, the student is still subject to the guidelines set forth in the district's Extracurricular Code. The school may set up a system by which an athlete using a Probationary Period can be monitored and checked for grade improvement.
- C. Students must show minimum progress toward meeting the high school graduation requirements prescribed by the governing board.
Juniors must have a minimum of 50 credits at the beginning of the first semester.
Juniors must have a minimum of 90 credits at the beginning of the second semester.
Seniors must have a minimum of 140 credits at the beginning of the first semester.
Seniors must have a minimum of 180 credits at the beginning of the second semester.

Athletic Competition (Cont.)

- D. Students who do not achieve satisfactory educational progress or maintain at least a quarterly 2.0 GPA will be ineligible. The grading periods used for calculating the grade point average will be first quarter, first semester, third quarter and second semester and Summer School
- E. Ineligible athletes to be considered scholastically eligible shall be required to make up failed graduation requirements in summer school, night school or alternative education. These failed courses must be made up by taking the equivalent class. The grades earned in the above scenario will replace the failed grades for the purpose of determining athletic eligibility. Ineligible athletes who have not failed a class may improve their GPA's by either replacing equivalent graduation requirements or taking additional courses for their own enrichment. Enrichment classes will be averaged into their G.P.A.'s.
- F. Summer school courses failed shall not impair athletic eligibility.
- G. Notice of ineligibility will be given prior to the first official contest after the student becomes ineligible (one school week after grades are reported to the office).
- H. All applicable CIF eligibility rules will be enforced as written

2. Pre-Practice Requirements

- A. All pre-practice requirements/clearances must be turned in to the Athletic Director's Office prior to beginning any athletic practice/competition.
- B. Pass a physical examination conducted by a licensed medical doctor and turn in to the head coach, or have on file with the Athletic Director, the physical card signed by both the physician who supervised the examination and one of the athlete's parents or guardian.
- C. Parents must certify medical insurance is carried on the athlete, or purchase athletic insurance
- D. Turn in to head coach or have on file with the Athletic Director, the signed portion of the District's Athletic Code. NOTE: Both the athlete and a parent or guardian signatures are required.
- E. A signed Acknowledgement of Assumption of Potential Risk Form with consent to treat if information is supplied. NOTE: Both the athlete and a parent or guardian signatures are required.

3. Athletic Ineligibility

Eligibility status shall follow all prescribed CIF and NSCIF By-Laws. A student shall immediately become ineligible to participate in athletics for any or all of the following reasons:

- A. Quitting a sport without consent of the coach after a two (2) week tryout period.

Athletic Competition (Cont.)

- B. Being dismissed from the squad for cause. A coach may set and enforce rules that are more stringent than the minimum standards. Each coach shall establish written guidelines that are distributed and signed by each athlete and parent/guardian. Each of the plans will be approved by the site administrator prior to the start of the season of sport. These guidelines will establish team rules and regulations that clearly identify consequences for rule infractions through dismissal from the team.
- C. Committed a suspension/expulsion offense as prescribed by California Education code Sections 48900 and 48915 that results in an out-of-school suspension during the season of sport
- D. Any athlete who is recommended for expulsion for committing offenses referred to in California Education Code Section 48900, 48900.2-.4, or 48915 will immediately become ineligible until an administrative decision is rendered. When the final disposition is made by the administration/or Board of Trustees regarding the expulsion recommendation, the athlete will remain athletically ineligible for the duration of time as stipulated in the expulsion order/contract. All applicable CIF rules regarding expulsion will be adhered to. Athletes on expulsion orders/contracts will not be able to practice during their period of ineligibility.

4. Penalties and Conditions for Eligibility

An athlete may again become eligible after fulfilling the following requirements:

- A. For violations of Education Code 48900, unless stated otherwise, which result in suspension;
The athlete will be ineligible for athletic competition for no less than the number of days suspended from school. For example: A one-day (1) suspension would equal one (1) day of athletic ineligibility, a three (3) day suspension would equal a three (3) day period of athletic ineligibility. The ineligibility period will include the days of suspension.
- B. For violation of Education Code 48900 (b), (c), (d), (h) and quitting, being dismissed for use of steroids; Using, possessing or furnishing tobacco, alcohol, illegal drug, controlled substance, firearm, knife, explosive or other dangerous objects, quitting a sport without coach's consent, being dismissed or, use of steroids, an athlete will be ineligible for a minimum of the following:

First Offense: (School year)

Athlete will be ineligible for one-third (1/3) of scheduled season events. .

Second Offense: (School Year)

Athlete will be ineligible for one-half (1/2) of scheduled season events.

Third Offense: (School Year)

Athlete will be ineligible for ONE calendar year from date of infraction, and will not be permitted to practice.

Athletes, with coach's permission unless stated otherwise, may practice with team if not suspended from school but will not compete in an athletic contest during athletic ineligibility period.

Athletic Competition (Cont.)

C. Conditions for eligibility

*Based on the number of contacts/contests scheduled on the seasonal sports calendar (scrimmages are not counted in these calculations, all tournament competition other than basketball will count as two contacts/contests. Basketball is the number of scheduled contests). When rounding, use the nearest whole number.

The unexpired portion of the penalty will be carried over into the athlete's post-season competition or the next season of participation. Failure to complete the above assigned penalties will result in the athlete being ineligible for one calendar year from the date of the infraction.

The fraction of the penalty is adjusted to apply to the scheduled number of contests for that sport. (Example: an athlete serves two (2) games of a three (3) game penalty in football. He would have one (1) game or one-third (1/3) of the penalty yet to serve. The next sport he goes out for is basketball, which may have (20) contests. If the athlete committed a first offense in basketball he would have to miss seven (7) contests. Since he has to serve one-third (1/3) of the remaining penalty carried over from football, he would miss two (2) basketball contests -- one-third (1/3) of seven (7) equals two (2) (nearest whole number).

The athlete's ineligibility period begins with a formal notification from the coach, the Athletic Director, or an administrator. The remaining contests of the season of sport will be counted for the ineligibility penalty. However, if an athlete quits a season of sport without the coach's consent, the unexpired season of sport will not count towards the penalty and will carry to the athlete's next season of sport.

An athlete will be placed on a probationary period of one (1) calendar year from the date of the infraction. If the athlete has not completed the conditions for eligibility but does not commit another violation during this period, then his/her record will be cleared. A subsequent violation would then be treated as a first offense.

5. Right of Appeal

- A. Athletes shall have the right to appeal, with their parents or other designated advocate, to the Athletic Council within 10 school days of the athlete's ineligibility notification (See Athletic Council: Membership, Responsibilities, Procedures). A written decision of the appeal will be sent to student and parent/guardian within three school days after the hearing.

Any offense, including those not specifically listed in the Code, may be considered by the Athletic Council.

If the student or parent/guardian is not satisfied with the Athletic Council's decision, they may submit a written appeal of the decision within five school days to the Superintendent or designee. The Superintendent or designee will meet with the student and/or parent/guardian and render a written decision of that appeal within three school days.

Athletic Competition (Cont.)

If the student and/or parent/guardian are not satisfied with the Superintendent's decision, they may submit a written appeal to that decision to the Board of Trustees within five school days. The Board will hear the appeal in Closed Session at the next regularly scheduled meeting if the written appeal has been received by the Superintendent within the timelines set forth for board agenda preparation. The Board will render a written decision to the student and parent/guardian within three school days. The Board of Trustees' decision shall be final and binding.

- E. During the appeal process, the athlete's ineligibility will remain in effect.
- F. Failure by the student to meet any appeal timelines will result in the appeal automatically being dropped.

6. Athletic Council: Membership, Responsibilities, and Procedures

When an appeal is filed, the Athletic Council shall convene and shall consist of:

- Principal, or his designee
- Athletic Director
- Three (3) coaches - one from each season, selected by their peers

Athletic Council Responsibilities:

- Serve as the board of appeals when requested by athlete(s).
- Serve as athletic advisory committee to District Administration and Board of Trustees.

Procedures of Appeal:

Refer to Right of Appeal (A-F) on page (f) of this Administrative Regulation.

7. Attendance

Athletes must be in school all day in order to participate in practice or games that day. The exception to this rule must be justified by the athlete to the Assistant Principal and/or Athletic Director. An unjustified excuse will cause the athlete to be ineligible for the next scheduled athletic contest.

8. When an Athlete is Suspended on Campus from School

- A. Students assigned to Suspension on Campus for four periods or more will result in the athlete being ineligible to practice or play that day.
- B. Students assigned to Suspension on Campus for less than four periods will be allowed to practice or play at the coach's discretion.

9. Equipment Return

Athletic equipment issued for a previous sport must be returned, or arrangements made for payment, before a student is allowed to participate in any game or contest in another athletic activity.

Athletic Competition (Cont.)

10. Transportation

In all athletic contests played away from school, the athlete will ride to and from games in school transportation (when provided by school district) unless prior arrangements are made by the parents with the approval of the coach.

11. Team Travel

When students are attending an "away" school sponsored function for athletic purposes, and that travel time to the venue, the event itself, and return travel from the event would include a meal(s), the expectation is that the student will bring a bag lunch or money to cover the expense of the meal(s) missed.

In the event that transportation breakdown or inclement weather prevents travel back to Oroville that day, the District will assume the reasonable cost of lodging. The School District will also assume reasonable meal expense for the team if they miss the next meal not planned for by the coaches. For example, "if the coach planned for lunch but due to bus breakdown the time away from home extends into the dinner hour, the District will refund the coach for the reasonable cost of a dinner."

12. Athletic Drug Testing

Policy Statement:

In order to provide for the health and safety of the individual athlete and other athletes, to provide a legitimate reason for students to say "no" to drug use and to provide an opportunity for those taking drugs to receive help in locating a program of assistance, the District is conducting a mandatory drug testing program for student athletes. The program is not punitive. It is designed to create a safe, drug-free environment for student athletes and assist them in getting help when needed.

Definitions:

Drug: Any substance considered illegal or controlled by the Food and Drug Administration.

Student Athlete: Any student participating in athletic practices and/or contests under the control and jurisdiction of the Oroville Union High School District.

Sport Season: Fall, Winter, and Spring seasons begin on the first day of practice allowed by the California Interscholastic Federation or Oroville Union High School District and end with the last sanctioned event.

Procedures:

Consent: The parent and/or guardian and the student athlete are required to sign a written consent for drug testing prior to participating in the athletic program. Testing will be conducted in the Fall, Winter, and Spring seasons of sport at District expense.

Athletic Competition (Cont.)

Medication: Student athletes who have taken or are currently taking prescription medication must declare this fact on the day of testing. The student must provide verification (either by a copy of the prescription or by doctor's authorization) if the drug test is positive. Students who refuse to provide verification and test positive will be subject to actions specified on page (b).

Student Selection: All student athletes may be tested at the beginning of each season. Random testing will be conducted during the sports season. Students selected for random testing will be selected by having their names drawn from a "pool" of student athletes.

"Positive" Test: if the student's test indicates positive results, a split sample will be tested to confirm the results. Parents will be notified only when the second test is positive.

The refusal of an athlete to take a urine test will be considered the equivalent of a positive test.

First Offense: (if results indicate "positive" testing of drug(s) presence)

1. Notify parent or guardian. (All test results are confidential.)
2. A due process hearing will be conducted by the principal or his designee with the parent/guardian and the student.

Amnesty Provision

One a one (1) time only basis, and prior to the day of athletes being drug tested, he/she may disclose his/her substance abuse status (all disclosures will remain confidential) to their coach, Athletic Director, or site administrator without having to participate in a drug screening. The athlete will be required to immediately enroll in a substance abuse program and provide the Athletic Director with proof of completion within three (3) calendar months. The athlete will be re-tested before beginning the next season for which he/she is eligible.

Principles of Pursuing Victory with Honor

“Winning at All Costs is not Winning at All – Pursue Victory with Honor”

1. The essential elements of character building and ethics in CIF sports are embodied in the concept of sportsmanship and six core principles: trustworthiness, respect, responsibility, fairness, caring and good citizenship. The highest potential of sports is achieved when competition reflects these "six pillars of character."
2. It's the duty of School Boards, superintendents, school administrators, parents and school sports leadership including coaches, athletic administrators, program directors and game officials - to promote sportsmanship and foster good character by teaching, enforcing, advocating and modeling these "six pillars of character."
3. To promote sportsmanship and foster the development of good character, school sports programs must be conducted in a manner that enhances the academic, emotional, *social*, physical and ethical development of student-athletes and teaches them positive life skills that will help them become personally successful and socially responsible.
4. Participation in school sports programs *is* a privilege, not a right. To earn that privilege, student-athletes must abide by the rules and they must conduct themselves, on and off the field, as positive role models who exemplify good character.
5. School Boards, superintendents, school administrators, parents and school sports leadership shall establish standards for participation by adopting and enforcing codes of conduct for coaches, athletes, parents and spectators.
6. All participants in high school sports must consistently demonstrate and demand scrupulous integrity and observe and enforce the spirit as well as the letter of the rules.
7. The importance of character, ethics and sportsmanship should be emphasized in all communications directed to student-athletes and their parents.
8. School Boards, superintendents, school administrators, parents and school sports leadership must ensure that the first priority of their student-athletes is a serious commitment to getting an education and developing the academic skills and character to succeed.
9. School Boards, superintendents, principals, school administrators and everyone involved at any level of governance in the CIF must maintain ultimate responsibility for the quality and integrity of CIF programs. Such individuals must assure that education and character development responsibilities are not compromised to achieve sports performance goals and that the academic, social, emotional, physical and ethical well-being of student-athletes is always placed above desires and pressured to win.

10. All employees of member schools must be directly involved and committed to the academic success of student-athletes and the character-building goals of the school.
11. Everyone involved in competition including parents, spectators, associated study body leaders, and all auxiliary groups have a duty to honor the traditions of the sport and to treat other participants with respect. Coaches have a special responsibility to model respectful behavior and the duty to demand that their student athletes refrain from disrespectful conduct including verbal abuse of opponents and officials, profane or belligerent trash-talking, taunting and inappropriate celebrations.
12. School Boards, superintendents, and school administrators of CIF member schools must ensure that coaches, whether paid or voluntary, are competent to coach. Training or experience may determine minimal competence. These competencies include basic knowledge of: 1) The character building aspects of sports, including techniques and methods of teaching and reinforcing the core values comprising sportsmanship and good character. 2) The physical capabilities and limitations of the age group coached as well as the first aid. 3) Coaching principles and the rules and strategies of the sport.
13. Because of the powerful potential of sports as a vehicle for positive personal growth, a broad spectrum of school sports experiences should be made available to all of our diverse communities.
14. To safeguard the health of athletes and the integrity of the sport, school sports program must actively prohibit the use of alcohol, tobacco, drugs and performance enhancing substances, as well as a demand compliance with all laws and regulations, including those related to gambling and the use of drugs.
15. Schools that offer athletic programs must safeguard the integrity of their programs. Commercial relationships should be continually monitored to ensure against inappropriate exploitation of the school's name or reputation. There should be no undue influence of commercial interests. In addition, sports programs must be prudent, avoiding undue dependency on particular companies or sponsors.
16. The profession of coaching is a profession of teaching. In addition to teaching the mental and physical dimensions of their sport, coaches, through words and example, must also strive to build the character of their athletes by teaching them to be trustworthy, respectful, responsible, fair, caring and good citizens.

OROVILLE UNION HIGH SCHOOL DISTRICT
Concussion Information Sheet

A concussion is a brain injury and all brain injuries are serious. They are caused by a bump, blow, or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. They can range from mild to severe and can disrupt the way the brain normally works. Even though most concussions are mild, **all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly.** In other words, even a “ding” or a bump on the head can be serious. You can’t see a concussion and most sports concussions occur without loss of consciousness. Signs and symptoms of concussion may show up right after the injury or can take hours or days to fully appear. If your child reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, seek medical attention right away.

Symptoms may include one or more of the following:

- | | |
|--|---|
| <ul style="list-style-type: none"> • Headaches • “Pressure in head” • Nausea or vomiting • Neck pain • Balance problems or dizziness • Blurred, double, or fuzzy vision • Sensitivity to light or noise • Feeling sluggish or slowed down • Feeling foggy or groggy • Drowsiness • Change in sleep patterns | <ul style="list-style-type: none"> • Amnesia • “Don’t feel right” • Fatigue or low energy • Sadness • Nervousness or anxiety • Irritability • More emotional • Confusion • Concentration or memory problems (forgetting game plays) • Repeating the same question/comment |
|--|---|

Signs observed by teammates, parents and coaches include:

- Appears dazed
- Vacant facial expression
- Confused about assignment
- Forgets plays
- Is unsure of game, score, or opponent
- Moves clumsily or displays incoordination
- Answers questions slowly
- Slurred speech
- Shows behavior or personality changes
- Can’t recall events prior to hit
- Can’t recall events after hit
- Seizures or convulsions
- Any change in typical behavior or personality
- Loses consciousness

What can happen if my child keeps on playing with a concussion or returns too soon?

Athletes with the signs and symptoms of concussion should be removed from play immediately. Continuing to play with the signs and symptoms of a concussion leaves the young athlete especially vulnerable to greater injury. There is an increased risk of significant damage from a concussion for a period of time after that concussion occurs, particularly if the athlete suffers another concussion before completely recovering from the first one. This can lead to prolonged recovery, or even to severe brain swelling (second impact syndrome) with devastating and even fatal consequences. It is well known that an adolescent or teenage athlete will often under report symptoms of injuries. And concussions are no different. As a result, education of administrators, coaches, parents and students is the key for student-athlete’s safety.

If you think your child has suffered a concussion

Any athlete even suspected of suffering a concussion should be removed from the game or practice immediately. No athlete may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly symptoms clear, without medical clearance. Close observation of the athlete should continue for several hours. The new CIF Bylaw 313 now requires implementation of long and well-established return to play concussion guidelines that have been recommended for several years:

“A student-athlete who is suspected of sustaining a concussion or head injury in a practice or game shall be removed from competition at that time and for the remainder of the day.”

and

“A student-athlete who has been removed may not return to play until the athlete is evaluated by a licensed health care provider trained in the evaluation and management of concussion and received written clearance to return to play from that health care provider”.

You should also inform your child’s coach if you think that your child may have a concussion Remember its better to miss one game than miss the whole season. And when in doubt, the athlete sits out.

Dates of Academic Probation: _____

I understand that I am academically ineligible to participate in extracurricular activities. This contract is a request for academic probation for a 9 week period during the current school year.

Contractual Obligations:

1. In order to participate in extracurricular activities, students must maintain a grade point average (GPA) of 2.0 or better each grade reporting period. Grading periods occur approximately every 9 weeks, to include quarterly and semester report cards only.
